Like the human foot - the proper shoe has a flexible arch

"In the natural foot the arch is flexible and plays an important part in every step. When the shank of the shoe is stiff, this natural movement is prevented and the muscles deteriorate from disuse. Ability to maintain the necessary strength of the foot depends upon allowing the foot muscles free action. The shank of the shoe should be flexible." —Augusta Rucker, M. D., in *McCall's Magazine*.

CANTILEVER SHOES have the flexible shank which allows the foot free action and supreme comfort. No strip of rigid metal lies concealed in the arch of these shoes as in all ordinary shoes.

When you lace a Cantilever Shoe, the flexible shank is drawn up snugly under the arch of your foot, giving restful support. The arch muscles are free to maintain — or regain — their natural strength by the mere act of exercise. Thus are weak or fallen arches—and other ills—avoided or corrected.

In addition, Cantilever Shoes have

further characteristics which make them more comfortable and more efficient than ordinary shoes. A natural sole line. Room for the toes without crowding. Good heels, rightly placed. An extensive range of widths and lengths to insure perfect fit.

And they have a grace of contour and the unmistakable "quality look" which harmonizes with the most distinguished apparel. Prices are reasonable.

If no dealer listed at the right is near you, write the manufacturers, Morse & Burt Co., 11 Carlton Avenue, Brooklyn, N. Y., for the address of a nearby dealer and the Cantilever Shoe Booklet.

INVENTION TO FOIL BANK ROBBERS

This is not an actual hold-up, but an illustration of a new plan to thwart bank bandits whose depredations have become so alarmingly frequent. When the robber steps in front of the teller's window the teller by a pressure of his foot raises a curtain of steel between him and the robber, at the same time spraying his face with a chemical that temporarily blinds him.

Picketing by Ukrainian Sympathizers in National Capital

WOMEN PICKETS IN WASHINGTON
 Since the passage of the Woman's Suffrage Amendment and the subsidence of the Irish agitation picketing at the national capital has not been in vogue so much as formerly. Recently, however, these American-born girls of Ukrainian parentage have revived the custom in protest against alleged atrocities being perpetrated in Ukrainian Galicia by Polish military forces. There was no active propaganda, the girls depending solely upon the effect of the placards they carried.

"CORN" DOLLAR

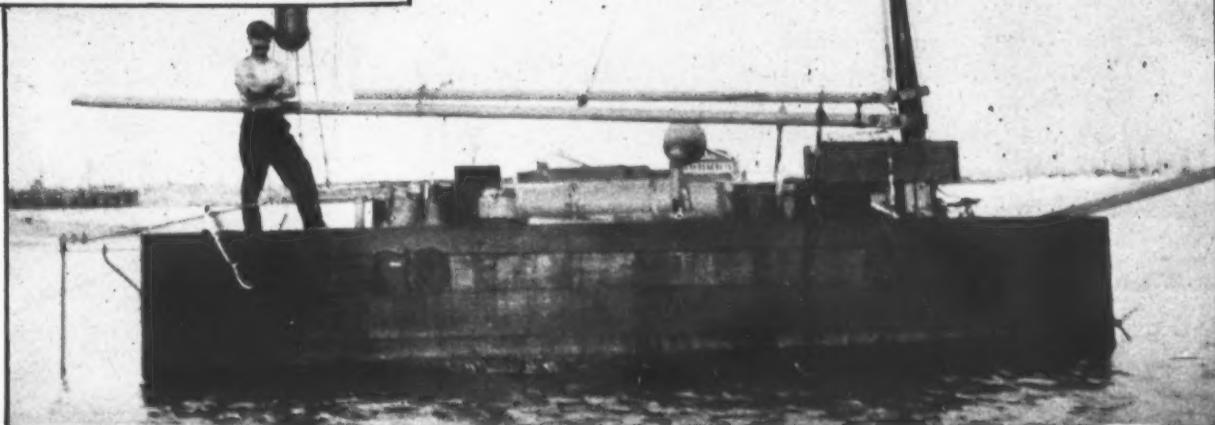

A feature of a country fair recently held in Iowa was this "corn" dollar, so called because it was made up of separate kernels of Iowa corn carefully selected as to color and size. Six months were required to make this curiosity, which contains more than a quarter of a million kernels. The "dollar" was thirty-two times the size of the American dollar and there were more than thirty different shades of color.

WOODEN SUBMARINE
 This unusual craft, designed for submarine use in pearl fishing, has just been launched by William Roland at Los Angeles Harbor, Cal. The vessel has a trapdoor at the bottom, and, after submerging, the pilot can step out on the sea floor, gather his pearls, get in again and ascend to the surface. It will proceed to the South Sea Islands. The submarine is twenty-three feet long.

West Virginia Miners Appeal to the President;

DELEGATION OF COAL MINERS

After a telephone call from President Harding, Secretary of Labor Davis received this committee of miners from the West Virginia fields. It was stated by them that all those blacklisted by the coal companies would be evicted from their homes by Jan. 18. They appealed to the Government for help. Left to right are shown Lawrence Dwyer, Mrs. Underwood, Alex. Martin, Ed. Williams, Hallie Underwood, Secretary Davis and Dorothy Underwood. Carl Brown in rear.

Marvels of Handicraft— Burglary and Fire Prevention

SMALLEST TIMEPIECE IN THE WORLD

This tiny watch measures one-quarter of an inch across the dial, and its works are so small that it required a year and a half for one of the most skillful watchmakers in Great Britain to get them together and in working order. It is valued at \$2,000. The case and chain are of solid platinum mounted with rose diamonds.

LIQUOR SMUGGLING

Many methods have been adopted by bootleggers and whisky runners to smuggle liquor into this country, and one of them is here illustrated. The log was split in half, holes hollowed out in which jugs could be concealed, the parts then bolted together and the logs floated in under rafts.

Great Dock System Proposed to Meet the Needs of New York City Commerce

BIRDSEYE view of lower Manhattan, showing the system of docks proposed in the designs submitted by Joseph M. Huston, a Philadelphia architect. The plan contemplates the erection of a great series of docks, beneath whose arches the largest steamers may dock to load or unload their cargoes. The docks (seen at left) would really be great loft, factory or office buildings, and the ships would thus be at their very doors, saving time, labor and trucking charges. There is a crying need for greater dock facilities in order to take full advantage of the magnificent possibilities of one of the greatest harbors in the world, and while no definite plans have been adopted, the Port of New York Authority is giving earnest attention to the matter of port development.

Document Bearing On So-Called "Lost Battalion"

To The Commanding Officer of the 2nd Batl. J.R. 308
of the 77th American Division.

Sir.

The Bearer of the present, *Yonell R. Hollingshead*
has been taken prisoner by us on October
He refused to the German intelligence Officer every answer to his ques-
tions and is quite an honourable fellow, doing honour to his father-
land in the strictest sense of the word.

He has been charged against his will, believing in doing wrong
to his country, in carrying forward this present letter to the Officer
in charge of the 2nd Batl. J.R. 308 of the 77th Div. with the purpose to
recommend this Commander to surrender with his forces as it would be
quite useless to resist any more in view of the present conditions.

The suffering of your wounded man can be heard over here
in the German lines and we are appealing to your human sentiments.

A white Flag shown by one of your men will tell us that you
agree with these conditions.

Please treat the *Yonell R. Hollingshead* as an honourable man.
He is quite a soldier we envy you.

The German commanding officer.

Interesting letter sent by the German commander
complimenting the bearer, an American soldier, and
calling on Major Whittlesey to surrender his battalion
on the ground that further resistance was hopeless.
(Reproduced by courtesy of Mr. F. R. Whittlesey.)

ONE of the classic incidents of the World War was the heroic resistance offered by the battalion of Major Whittlesey during the fighting in the Argonne to the overwhelming German forces that surrounded it. The battalion has been popularly referred to as the "lost battalion," but, as General Pershing has pointed out in a recent letter, that was a mistaken designation. The battalion was in no sense lost, but was cut off through the inability of the forces on the flank to maintain liaison with it. On the 2d of October, 1918, elements from two battalions of the 308th Infantry, accompanied by sections of the 306th Machine Gun Battalion, under the command of Major Charles S. Whittlesey, were under orders to break through strongly entrenched enemy positions. They did get through, but the flanking elements that were to support them were checked. That night the enemy linked up the two sections of their trench system and placed a closed German line to the rear of Major Whittlesey's command. Surrender seemed inevitable, but despite tremendous odds and heavy losses the heroic battalion held on to the 8th, when relief came and the 252 survivors of the 679 who had entered the "pocket" marched south with their sick and wounded to rest. One of the features of the episode was the letter here reproduced, sent by a German officer by an American prisoner on the afternoon of the 7th, demanding surrender. But surrender was a word that Major Whittlesey and his gallant men did not understand.

seventh Division (left), chatting with Major Whittlesey after
the former with his men had gone to the relief of the latter's

As necessary in your vanity case or hand-bag as compact or lip-stick

This Season Fashion Demands "Nips" in their New Satin Gold Case

IN Paris, New York and Washington, wherever the smart world gathers, women are using "Nips" of their favorite perfume.

And in this the smart world shows its good sense as well as its good taste, for these dainty, individual "Nips" enable one to freshen one's self when it is desirable, no matter where one may be, with the choicest perfumes in the world—and the new satin gold case is a real ornament to any vanity case or hand-bag.

"Nips" a necessity of the toilet

Just as you always carry your compact and lip-stick, so now you should carry "Nips", for "Nips" cannot spill, cannot evaporate, and enable you to have a generous application of perfume at your finger tips whenever you want it.

Why Paris sent for "Nips"

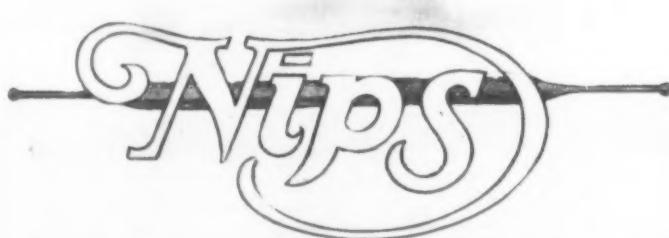

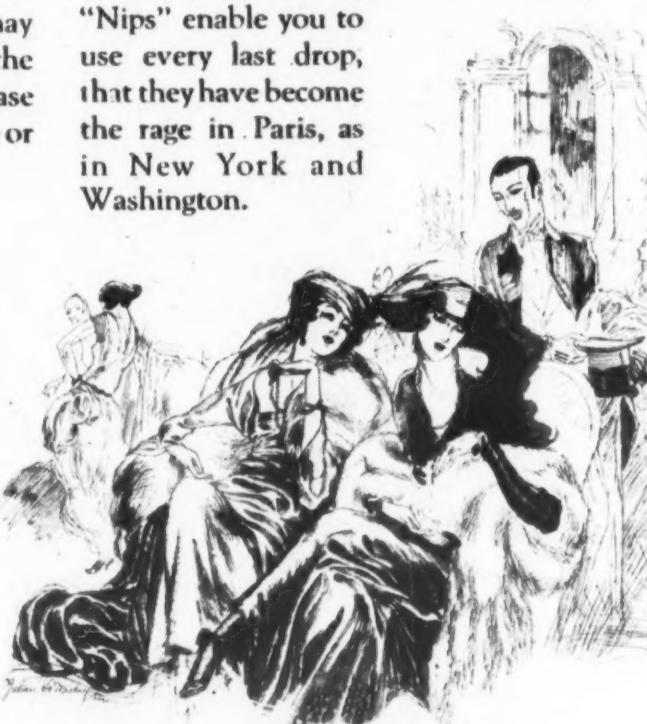

It was the daintiness of the "Nips" idea that first appealed to smart Parisiennes, but the second and possibly even stronger appeal lay in their economy. The French, as you know, hate waste, especially waste of things as precious as fine perfumes, and it was because "Nips" enable you to use every last drop, that they have become the rage in Paris, as in New York and Washington.

"Nips" of five world famous perfumes

The best known and most delicious odors of Coty, Houbigant, Lubin and Kerkoff, the celebrated French perfumers, are obtainable in "Nips". These five wonderful imported perfumes—L'Origan of Coty, Quelques Fleurs and Parfum Ideal of Houbigant, Douce France of Lubin and Djer-Kiss of Kerkoff—are offered to women of true discernment, in dainty, convenient "Nips".

Write us direct

It is possible that your regular department store may not have "Nips" in their new satin gold case, so we suggest that you write us direct. And we suggest too, that you order three cases of "Nips" at a time, thus you will always have a generous supply of dainty perfume applications at your disposal.
